

# COMPLYING WITH THE CHARITIES GOVERNANCE CODE

Course Code: CT192006

## TRAINING OUTLINE

Registered charities in Ireland must be in compliance with the Charities Governance Code by 2020. This workshop is designed to help charity trustees and staff create a compliance road map for their organisations. The road map will identify any compliance gaps that may exist and how these gaps will be effectively addressed.

At the end of the training, participants will:

- Understand the Charities Regulator reporting requirements for registered charities
- Understand the implications for charities of complying with the six principles of the Charities Governance Code
- Identify appropriate actions that may be taken to comply with the Code
- Identify policies, procedures and other documentary evidence that may be assembled to demonstrate compliance with the Code
- Identify obstacles to compliance and how these may be overcome
- Understand how to conduct a trustee induction so that all future trustees and board members understand their trustee obligations and responsibilities

Workshop attendees will receive a range of templates (in addition to those available on the Charity Regulator's website) to help them to apply what they have learned in their charities.
